Tateki MITANI, et al.

Appln. No.: 10/771,458

Group Art Unit: 3747

Confirmation No.: 2946

Examiner: Thomas N. MOULIS

Filed: February 05, 2004

For: FUEL VAPOR LEAK DETECTING APPARATUS, AND FUEL SUPPLYING APPARATUS TO
BE APPLIED TO THE SAME

STATEMENT OF SUBSTANCE OF INTERVIEW

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Please review and enter the following remarks summarizing the interview conducted on February 28, 2006, for which the Examiner provided an Interview Summary mailed with the Notice of Allowability dated March 3, 2006.

During the February 28, 2006 interview, the Examiner requested that claim 1 be canceled. This is because claim 1 recites that the pressurizing section is a jet pump and claim 4 recites that the pressurizing section includes an air pump.

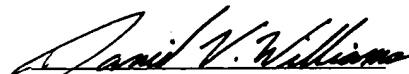

It is respectfully submitted that the allowed claims speak for themselves, and do not require additional clarification to determine their respective scopes.

It is believed that no petition or fee is required. However, if the USPTO deems otherwise, Applicant hereby petitions for any extension of time which may be required to maintain the pendency of this case, and any required fee, except for the Issue Fee, for such extension is to be charged to Deposit Account No. 19-4880.

Respectfully submitted,

SUGHRUE MION, PLLC
